# En Garde Adjustable Face Shield

The ValleyMed En Garde Face Shield is a comfortable, sanitizable solution for avoiding the danger of airborne droplets - available at a very low cost which allows for reusability and/or frequent disposal.

A close-up photograph of a person wearing the En Garde Adjustable Face Shield. The shield is white and made of a flexible material, with a blue adjustable strap around the head. The person is also wearing a white respirator mask. The background is a plain, light-colored wall.

The 10" deep by 14.15" wide dimensions of the en GARDE Shield provide the full coverage required by Health Canada

**FDA Approved:** The shield is made of rigid but flexible 10.0 mil (250 micron), scuff-resistant polyester which is FDA approved. It is more hydroscopic (resistant to water penetration) and its compatibility to hospital cleaners makes it superior to polycarbonate shields.

Bringing bright ideas to light.

# En Garde Adjustable Face Shield

The shield is made of flexible FDA approved mylar. For comfort a soft foam band secures the assembly to the forehead.

Top to bottom flow-through ventilation ensures optimum comfort and reduces the possibility of fogging. The en GARDE Face Shield is "hinged", so it can be lifted to allow for a cup of coffee, drink of water, or just a simple break! Adjustable elastic design accommodates different head sizes.

**Manufactured in Ontario:** by Canadians, and in conformance to Health Canada guidelines for COVID 19 PPE for face shields used in the Health Care Industry.

## Easy Storage

Ships flat - Final assembly takes only a few seconds!!

## Comfortable

High-Density Foam straps to forehead - can be washed or sanitized and is more resistant to contagions than softer low-density spongy foam.

## Adjustment Holes

for tensioning elastic strap and altering distance between shield and foam head padding components

## Reusable

The en GARDE Face Shield can be reused as desired. All components can be washed and or sanitized with the use of cleaning wipes or solutions containing alcohol or accelerated hydrogens peroxide as a base.

## Compatible

The EN GARDE Face Shield has been tested to work comfortably with other equipment including N95 masks, surgical masks and safety goggles.

## Superior Ventilation

Unlike most other shields, the EN GARDE Shield is designed to allow top-to-bottom ventilation, so the user can stay cool, and enjoy the reduced possibility of fogging.
